

INSIDE THE RESEARCH

A VIRTUAL EVENT BY INHSU PRISONS

Join INHSU Prisons for a virtual event where we welcome authors from research papers highlighted in the [Annual INHSU Prisons Bibliography 2022](#). These papers were considered to be of 'outstanding' or 'exceptional' interest by the INHSU Prisons Executive Committee. Authors of each paper will provide an overview of their research alongside practical takeaways and participate in a facilitated panel discussion.

Join us to discuss lessons learnt from these publications, implementation considerations as well as the policy and practice implications.

JOIN US:

Tuesday 23 May 2023

2:00 PM - Vancouver/Los Angeles/San Francisco
5:00 PM - Montreal/Toronto/Washington/New York
